HARVESTER 6 E-DISCOVERY ENGINE

Description

Fast, 64-bit multi-threaded on-prem E-Discovery processing engine rapidly extracts your data without the core fees!

This is 1 of 8 sneak peeks into the features in our upcoming Harvester 6.0 release.

SNEAK PEEK #1 â€“ MULTI-THREADED PROCESSING ENGINE

Pinpoint Labs has developed a **multi-threaded processing engine** that extracts files, messages, text, metadata, OCRâ€™s image files and builds load files. Harvester Server also collects directly from cloud files and email sources and sends items into the processing engine.

LEVERAGES THE PROCESSING POWER IN YOUR FASTEST PCâ€™S!

HARVESTER 6 E-DISCOVERY ENGINE

Harvester Server Processing intelligently scales processing speeds based on the number of cores and memory available on the host computer. One of the many benefits that sets Pinpoint Labs apart is our flat rate pricing that allows you to **take advantage of powerful production computers without the added per core costs others charge.**

Using Harvester Server Processing reduces annual costs, has the flexibility to be moved to different locations and **works seamlessly with our world-class enterprise collection platform.**
