

Case Study: Morgan Lewis Uses Pinpoint Cloud Collector

Description

Case Study

80% Faster Cloud Collections for AmLaw 25 Firm

Discover how Morgan, Lewis & Bockius LLP transformed its eDiscovery process with Pinpoint Cloud Collector.

[Download](#)

When Morgan, Lewis & Bockius LLP, a global law firm ranked in the AmLaw 25 with multiple Chambers-ranked practices, faced mounting challenges in cloud-based data collection, they needed a solution that was fast, accurate, and defensible.

With Pinpoint Cloud Collector, their eData group eliminated metadata inconsistencies, preserved folder structures, and dramatically improved turnaround time.

Download the full case study to see how they achieved 80% faster collection while cutting unnecessary data by 50%—without relying on outside vendors.

Key Results

- 80% faster collection process
- 50% reduction in unnecessary data
- Metadata fully preserved

- Set up in under 60 seconds
- No third-party vendors required

“Pinpoint Cloud Collector solved our authentication issues and delivered exactly what we needed—cloud data collections with preserved structure and metadata, all in a seamless process.”

George E. Phillips Director of eData Development and Technology Morgan, Lewis & Bockius LLP

“Pinpoint Cloud Collector transformed our collections process, giving us the flexibility to target specific data and ensuring consistent metadata retention across platforms.”

Justin M. Fascetti Manager of eData Forensics Morgan, Lewis & Bockius LLP

The Results: Fast, Defensible, and In-House Cloud Collection

Morgan Lewis reported a dramatic improvement in its cloud collection workflows after implementing Pinpoint Cloud Collector. The team was able to reduce overall collection time by 80%, allowing them to meet litigation deadlines faster and with greater confidence.

By enabling targeted collections, they also cut unnecessary data by 50%, minimizing overcollection and streamlining the review process. Most importantly, the tool ensured complete metadata preservation and accurate folder/file structures, delivering legally defensible collections that held up under scrutiny.

The solution was deployed with minimal setup—in under 60 seconds—and required no reliance on external vendors. The eData group managed collections internally, improving turnaround time and reducing cost.
