Pinpoint Labs and Right Forensics Announce New Partnership

Description

Pinpoint Labs is excited to announce a strategic partnership with **Right Forensics**, a digital forensic investigations and eDiscovery firm founded by expert witness **Jerry Bui**. This collaboration integrates Pinpoint Labsâ?? **CrossCopy Enterprise** into Right Forensicsâ?? toolkit, enhancing their capabilities in cloud-based and targeted mobile data collection. By leveraging CrossCopy Enterprise, Right Forensics can conduct efficient and defensible data collections, reinforcing their commitment to delivering exceptional service to their legal, corporate, and government clients.

A Tool Designed for Precision and Privacy

As a cornerstone of Right Forensicsâ?? investigative toolkit, CrossCopy Enterprise offers advanced features like:

- **Seamless Cloud Integration**: Collect data from OneDrive, Google Drive, Dropbox, etc.
- **Targeted Mobile Collection**: Retrieve only relevant messages while safeguarding personal data.
- **Defensible Chain of Custody**: Utilize robust file-by-file hash verification to maintain data integrity.

â??Pinpoint Labsâ?? tools have been integral to maintaining the highest standards in forensics data collection,â?• said Right Forensics founder Jerry Bui. â??[and] with the release of CrossCopy Enterprise, it represents a significant leap forward in cloud data collection, particularly with its robust hash verification capabilities. Itâ??s a tool that delivers the precision and reliability our clients demand, especially in cases requiring uncompromising data integrity.â?•

This partnership highlights the shared vision of both companies to advance digital forensics and eDiscovery. We designed CrossCopy Enterprise to address the evolving needs of forensic and legal professionals, from streamlined cloud collection to the highest standards of privacy for custodians.â?• said **Jon Rowe**, CEO of Pinpoint Labs. â??Right Forensics will undoubtedly benefit from CrossCopyâ??s robust capabilities as they continue delivering outstanding investigative services to their clients.â?•

Pinpoint Labs and Right Forensics set a new standard for digital forensic investigations, empowering professionals with tools prioritizing precision, efficiency, and privacy.
