

CrossCopy Enterprise

The Ultimate Data Collection Suite

Unlock the potential of efficient, cross-platform data collection with CrossCopy Enterprise. Designed for legal teams and investigators, CrossCopy Enterprise is a web-based marvel that lets you bid farewell to physical restrictions and embrace the convenience of modern technology.

No Boundaries, Just Solutions

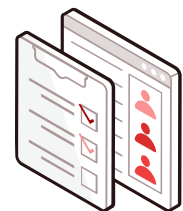

Cross-platform Compatibility

Whether it's Windows, macOS, Android, iPhones, or Linux, CrossCopy Enterprise is the versatile choice for uncomplicated data collection.

Simplified Project Management

With our intuitive admin dashboard, sending out collection requests is as simple as a few clicks.

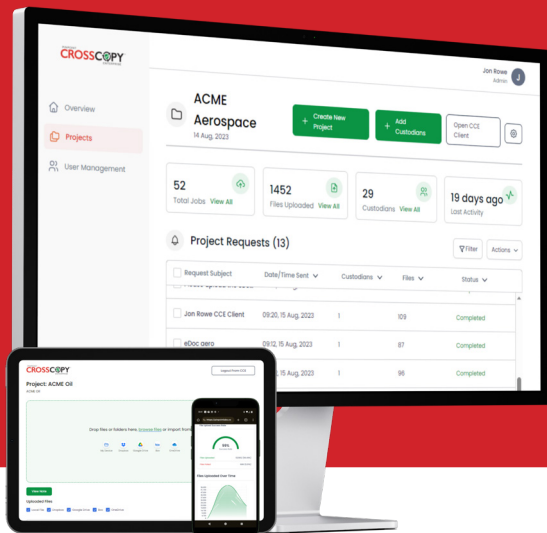

Secure and Compliant

Embrace GDPR compliance and data security with CrossCopy Enterprise, ensuring your data is handled with the utmost integrity.

Features at a Glance

- **SaaS Convenience:** A seamless experience across all devices and platforms, CrossCopy Enterprise is tailored for defensible eDiscovery collections.
- **Automated Collections:** Send collection requests via email or SMS effortlessly, allowing data collection from multiple devices.
- **Diverse Data Sources:** From local drives to popular cloud platforms, collect data with ease and security.
- **Integrity and Compliance:** With robust file verification and comprehensive custody reports, maintain the highest standards of data authenticity.
- **User-Friendly Interface:** No installations, no fuss – just a straightforward, browser-based interface that’s easy to navigate.
- **Real-Time Insights:** Monitor collection statuses and visualize progress with our real-time dashboard.

Experience Next-Level Data Management

With CrossCopy Enterprise, step into a new era of data collection – efficient, secure, and compliant. Your trusted partner in the digital age awaits.
